

Town of Dayton  
*Facade Enhancement Grant*  
2016-2017

Looking to renovate the exterior of your property that has a B-1 zoning designation in the Town of Dayton? The Town of Dayton Façade Enhancement Grant program may be just what you are looking for.

The Facade Enhancement Grant program is funded by the Dayton Town Council. The program is intended to incentivize property owners with a B-1 zoning designation to make improvements to the exterior of their buildings and properties thus improving the aesthetic quality and historic preservation of the community.

Approved projects must be to the exterior of the property and provide an obvious benefit to the appearance of the structure. The applicant must meet all regulations and obtain all necessary permits if applicable before commencing any grant funded improvements.

The grant provides those approved applicants a 1:1 match for specific improvements approved by the grant committee. For example if you spend a total of \$500 on your enhancement the Town may reimburse you up to \$250. The program is reimbursable meaning the approved applicant must fund the full cost of the improvement before requesting the release of approved matching funds for associated expenses.

Please ensure applications are complete and that supporting documentation such as pictures, renderings and contractor quotes are included. The more specific and detailed your application the better. Completed grants are due to the Town Office by Friday, November 18, 2016 at 3:00 pm.

You will find additional information and instruction to apply for this grant at the Town of Dayton website, [daytonva.us](http://daytonva.us). If you have specific questions regarding the program or application please contact Mr. Bobby Popowicz, Town Superintendent at (540) 879-2241.
